srishtimanjunath.64@gmail.com

Product Designer (UI/UX) with a foundation in Computer Science Engineering and hands-on training as a Top Product Management Fellow at NextLeap. I design clear, scalable user experiences by combining product thinking, UX research, and strong visual execution. Experienced in translating complex requirements into intuitive flows, reducing cognitive load, and guiding users to meaningful first actions. Comfortable collaborating with engineers and PMs to build user-centered, outcome-driven products.

SKILLS

- User Research and Usability Testing
- Proficiency in design tools like Sketch, Figma and Adobe XD
- Wireframing and Prototyping
- Interaction Design and Information Architecture
- Visual Design and UI Development
- Project Management and Agile Methodologies
- Cross-functional Collaboration and Team Leadership

EDUCATION

PRODUCT MANAGEMENT FELLOWSHIP
Next Leap | 2025

BACHELOR OF COMPUTER SCIENCE
JSSATE VTU University | 2013-2017

WORK

UX DESIGNER
Tute Dude | 2023

- Lead cross-functional teams of designers, developers and product managers to execute user-centric design strategies
- Manage project scopes and deadlines, ensuring timely delivery of high-quality UX/UI elements in alignment with business objectives
- Engage with stakeholders, end-users and research teams to gather insights and requirements, translating them into solutions

WEBSITE DESIGNER & DEVELOPER
Internship Studio | 2025

- Work closely with designers, product managers and backend engineers to develop and implement responsive, user-friendly websites and web applications for both commercial and consumer-facing projects
- Conduct code reviews and quality assurance tests to ensure web solutions are compliant with industry and accessibility standards
